

Dear \_\_\_\_\_,

Today's ELF SKILLZ Lesson is all about Cooperation – Helping with Chores

Cooperation means that you work together with others and help without complaining.

It's important to have cooperation at home, especially when doing chores.

Let's try a game to see if you know how to cooperate with chores.

Do you have cooperation if...

- You leave your toys out and don't put them back before the end of the day?
- You put trash in the can all on your own?
- You leave your dirty clothes on the floor and complain when you have to pick them up?
- You help clean the table after you eat?

Today I challenge you to cooperate by doing chores around the house, and do so without complaining.

*If you accomplish this task, then I will give you 5 points. Once you have **20 point** then I will leave you a gift*
